Stalke Galleri, Kirke Sonnerup

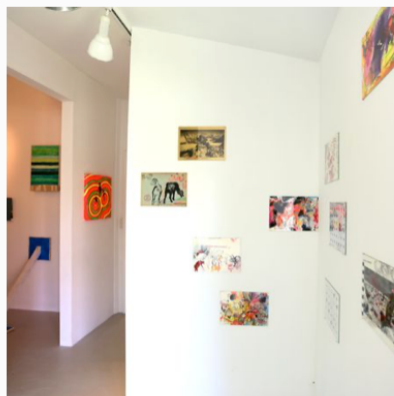

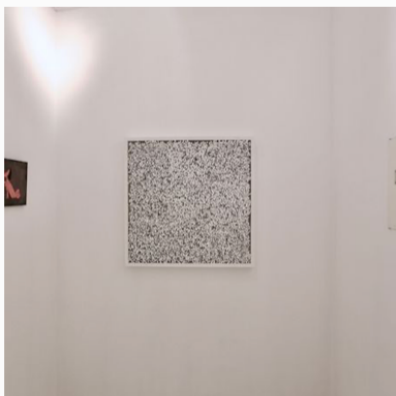

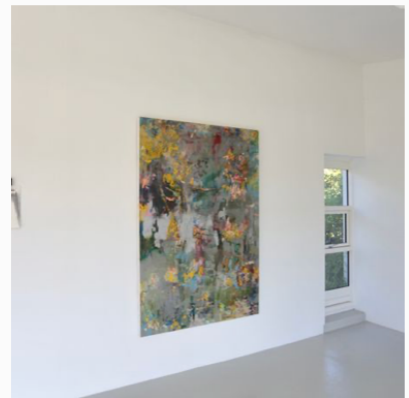

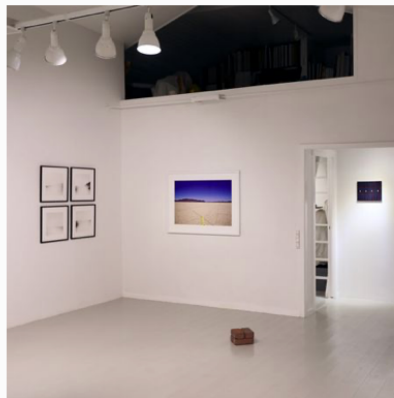

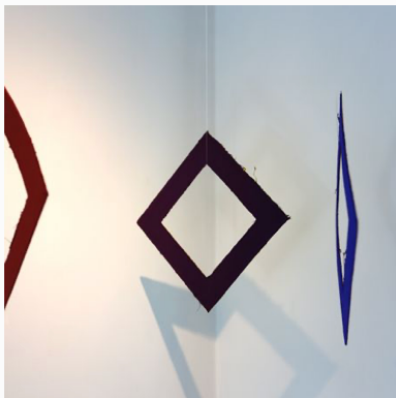

24.5 - 28.6. 2014

ON VIEW 5 was the fifth edition of Stalke Galleri's recurring exhibition series ON VIEW. The exhibition brought together a broad group of artists from both Denmark and abroad and presented a wide range of artistic positions within contemporary art.

Rather than being structured around a fixed theme, the exhibition took the form of an open presentation of works across different media, generations, and artistic approaches. This open structure allowed differences and connections between the works to emerge and encouraged new readings through the encounter between individual practices.

ON VIEW 5 was presented at Stalke Gallery in Kirke Sonnerup and formed a significant moment in the gallery's exhibition history. The exhibition reflected the gallery's ongoing work with both international artists and artists connected to the Danish art scene, highlighting the gallery's role as a space for exchange, dialogue, and continuity.
